June 23, 2006

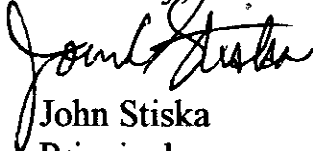

To whom it may concern:

I have known and worked with Hank Kraus for 20 years and during that time I have observed his development from energetic and innovative young entrepreneur to a mature, experienced and highly successful business leader.

Hank has proven himself in many different and challenging business situations. His ability to quickly grasp the fundamentals of a new business, restructure, refocus and follow through on well thought out and prepared strategic plans have enabled him to repeatedly enhance shareholder value, and transition businesses from uncertain futures to strong, successful and profitable status. His depth of financial knowledge, strong personal leadership, honesty, integrity, focus and clear vision add up to an entrepreneur with a proven track record in leading businesses to successful and profitable futures.

I have worked closely with Hank on many occasions and have observed his commitment to his shareholders, and the success of their business. This includes Emerald Systems, BioSafety Systems and Romer, Inc., each of which companies I was personally involved when Hank was there. I therefore have no hesitation in recommending Hank Kraus to you and am confident of his ability to answer the needs of your business.

Sincerely,

John Stiska

Principal
